

BookFlow Landing Page Technical Brief (annex)

Project: BookFlow marketing landing page + blog (Acme S.L.)

Stack: Next.js 14, Tailwind CSS, Sanity CMS, TypeScript.

Hosting: Vercel (Pro plan, EU region).

Functional requirements

- Contact form must POST leads to HubSpot via the v3 API.
- Blog section uses Sanity Studio as WYSIWYG editor (10 authors).
- All content must be available in EN and ES (i18n routing).
- Cookie banner compliant with EU GDPR + ePrivacy (Cookiebot).

Non-functional constraints

- Lighthouse score 90+ on Performance, Accessibility, SEO.
- Launch before September 1st (hard deadline, trade-show launch).
- Budget capped at 12,000 EUR.
- No native mobile app out of scope for this phase.

Team assumed by the agency

- 1 senior frontend engineer (full-time).
- 1 QA engineer (half-time).
- Design already provided in Figma no in-house designer needed.
